Company turnover

Vision and Strategic targets

We are on the brink of becoming the leading manufacturer and supplier of PVC, wooden and aluminium window systems and provider of complete glazing solutions for user-friendly environments. To become one of the 10 most prominent and socially-responsible companies in Slovenia.

Mission

How we are going to change the way you see the world:

- > By providing window systems that improve the quality of living in terms of energy, aesthetics, safety, well-being, noise protection and maintenance;
- > By creating picture frames that truly breathe life into the artwork and its surroundings;
- > By developing real-estate that offers a higher standard of living;
- > Through our humanitarian activities that directly and indirectly improve the lives of people around us.

Our core values

- > Fairness, honesty and professional approach;
- > Mutual respect and care for our employees;
- > Partnership, professionalism and expert know-how;
- > Encouraging creative input from every associate;
- > Care for personal growth, transfer of knowledge and experience onto our associates.

History

In the 24 years of its existence, MIK expanded its manufacturing capacity twice and became **one of the top manufacturers of PVC, ALU, wooden, wood/ALU doors and windows**. Owing to its creative and competent staff, efficient management and firm values, the fledgling company grew into what it is today: a company with almost 180 employees and a 17% share of the Slovenian PVC windows market. Today, MIK is more than a manufacturer of high-quality windows – we change the way you see the world.

Timeline
